FY2003 Request: \$30,000,000
Reference No: 36338

AEA expects to receive approximately \$30 million in federal financial assistance awards from the Denali Commission in FY 2003.

The state capital requests for the AEA programs describe the capital projects in detail. This request for federal receipt authority is necessary to continue with the bulk fuel upgrades, rural power system upgrades and the alternative energy programs.

Since the Denali Commission awards cover several AEA programs including bulk fuel upgrades, rural power system upgrades and alternative energy projects; AEA requests the federal receipt authority as one appropriation not specific to any single program.
